## ABOUT US

# EXIMPRO GROUP

At EXIMPRO GROUP, we take pride in being a trusted supplier and exporter of high-quality farm-fresh agricultural produce. Specialising in Pomegranate, Bananas, Custard Apple Pulp, Frozen Mango Pulp, Plant Growth Regulator, Chelated Micronutrient, Fertilizer, Spices, Dry Fruits, Vinyl Stickers/ Self-Adhesive Stickers, Printed Advertising Materials, we combine years of agricultural expertise with a strong export network to deliver natural freshness, rich taste, and consistent quality. Our commitment to excellence ensures that every shipment meets international standards, providing customers with reliable, farm-to-market supply across the globe.

### OUR VISION

To become a globally recognized merchant-exporter from India – known for uncompromising quality, timely delivery, and sustainable sourcing practices.

### OUR MISSION

Our mission is to deliver fresh, reliable, and premium-quality products that consistently add value to our customers.

## OUR STRENGTHS

# Why Choose Us ?

EXIMPRO GROUP is your trusted gateway to premium Indian agro-products, exported globally with commitment, quality, and care. We specialize in bringing the best of India's natural harvest

### **QUALITY ASSURANCE:**

All products are procured from certified suppliers, ensuring genuine and superior quality produce.

### **LOGISTICS & SUPPLY CHAIN:**

With a well-established network and logistics capabilities, we ensure timely and safe delivery of bulk orders across borders.

### **INTEGRITY & TRANSPARENCY:**

We value honest communication with customers, ensuring fair trade practices and building relationships based on trust.

### **CUSTOMIZED EXPORT SOLUTIONS:**

We understand that every buyer has unique requirements.— we offer tailored solutions to meet your specific needs

# Custard Apple Pulp

**HSN CODE - 08109040**

Custard apple, also known as sitaphal, is a rich source of dietary fiber, vitamin C, and antioxidants. It also has a creamy texture and sweet flavor that make it a popular ingredient in desserts and drinks. This offers 12 months of shelf life. Our frozen fruit pulp extract is unique in retaining its freshness and mineral nutrient value.

## SPECIFICATIONS:

- **Preservation:** Frozen to a temperature of (-18 degrees)
- **Shelf life:** Up to 12 months or more
- **Purity:** High purity, with 100% custard apple content
- **Quality:** Free from all toxic residues, pesticides, and other contaminants
- **Packaging:** Plastic containers or vacuum-sealed bags

# Frozen Mango Pulp

HSN CODE - 08119090

Our Frozen Mango Pulp is a rich source of vitamin C, vitamin A, and dietary fiber. It is also low in fat and calories, making it a healthy and delicious ingredient for your smoothies, desserts, and cocktails. Our frozen fruit pulp extract is unique in retaining its freshness and mineral nutrient value.

## SPECIFICATIONS:

- **Natural properties:** Natural sweetness, rich aroma, and flavour of ripe mangoes.
- **Nutritional value:** High in vitamins, especially Vitamin A and C.
- **Free from additives:** No added sugar (unless specified), preservatives, or artificial flavors.
- **Purity:** Hygienically processed, commercially sterile, and free from harmful microorganisms.
- **Shelf life:** Generally 12 to 18 months under proper storage conditions.
- **Packaging:** Aseptic bags or PP packets.

# Chelated Micronutrient

**HSN CODE - 38089340**

Chelated micronutrients are used in agriculture, every ounce of efficiency matters, and the role of micronutrients cannot be overstated. These essential elements, required by plants in small quantities, play a crucial role in their growth, development, and overall health. However, the efficiency of these micronutrients can often be compromised by factors such as soil conditions and nutrient availability.

## Specifications:

- **High Bioavailability:** Stays soluble and is quickly absorbed, ensuring fast correction of deficiencies.
- **Stable Across Soil pH:** EDTA/DTPA forms remain effective from pH 4–9.
- **Fully Water-Soluble:** Suitable for foliar spray, soil drench, fertigation, and drip systems.
- **Boosts Growth & Yield:** Enhances size, color, taste, stress resistance, and overall productivity while improving nutrient efficiency.
- **Packaging:** Export-friendly sizes – 200 L, 500 L.
- **Shelf Life:** 2–3 years.

# Fertilizer

**HSN CODE -31**

We are the largest complex fertilizer exporter and marketer in the country and offer a wide range of products, customised to the crop and soil needs. Our NPK and SSP fertilisers, fortified with secondary and micro nutrients, help in balancing the plant nutrient needs. India primarily exports chemical fertilizers like urea, diammonium phosphate (DAP), and various NPK complex fertilizers. Other important exports include Single Super Phosphate (SSP) and potassium fertilizers.

## SPECIFICATIONS:

- Length: 6 inches and above.
- Moisture content by weight: maximum 1%
- Particle size: Not less than 90% of the material shall pass through 4 mm IS sieve and be retained on 2 mm IS sieve. Not more than 5% shall be below 1 mm IS sieve
- Each bag to guarantee minimum product weight (net) as specified on the bag
- Packing: Packed in 50 kg (dry) capacity woven polypropylene bags
- Shelf Life: 2 to 3 years

# Vermicompost

**HSN CODE -31010099**

Vermicompost specifications define its quality, requiring a dark brown/black color, earthy smell, crumbly texture, and specific nutrient levels (e.g., 1-2% N, 0.5-1.5% P, 0.5-1% K), low moisture (under 25%), pH around neutral (6.5-7.5), and absence of pathogens/weed seeds, improving soil structure and plant growth with beneficial microbes and growth hormones like auxins. Key quality parameters include Physical (color, odor, texture, particle size), Chemical (pH, Organic Carbon, NPK content, micronutrients), and Biological (microbial load, hormones).

## SPECIFICATIONS:

- Color: Dark brown to black.
- Odor: Earthy, without foul smell.
- Texture: Granular, crumbly, free-flowing.
- Moisture: Max 25% (as per Fertilizer Control Order - FCO).
- Particle Size: Min 90% passing through 4.0 mm sieve.
- pH: 6.5 - 7.5 (near neutral).
- Organic Carbon: 9.15 - 17.98%.
- Total Nitrogen (N): 1.5 - 2.1%.
- Available Phosphorus (P): 1.0 - 1.5%.
- Available Potassium (K): 0.6%.
- Packaging: Packaging must be robust (e.g., 2-layer PP-PE bags)

# Plant Growth Regulator

HSN CODE - 38089340

Plant growth regulators are compounds that promote various aspects of plant development, such as cell division, root and shoot growth, flowering, and fruit production. Our PGR is designed to enhance plant growth and development, increase yield, and improve crop quality. It helps in regulating plant height, promoting root growth, and improving stress tolerance.

## SPECIFICATIONS:

- **Performance & Yield:** Boosts growth, enhances fruit size, shape, and weight.
- **Stress Resistance:** Improves tolerance to drought, cold, and diseases.
- **Balanced Composition:** Ensures effectiveness without harming crops.
- **Concentrated Formula:** Cost-efficient with lower dose per acre.
- **Optimized pH:** Maintains product stability and soil safety.
- **Packaging:** Export-ready sizes – 200 L, 500 L.
- **Safety:** Requires PPE; store in a cool, dry place.
- **Shelf Life:** 2-4 years.

# Pomegranate

**HSN CODE - 08109010**

Pomegranate Fruit is a naturally cultivated, premium-quality fruit known for its vibrant red arils, sweet-tart flavor, and abundant health benefits. This fruit is rich in essential nutrients such as antioxidants, vitamin C, and dietary fiber, making it an excellent addition to a balanced diet.

## SPECIFICATIONS:

- Color: Deep To Dark Red.
- Appearance: Clean and Glossy Skin.
- Grade: A Grade.
- Size: 200–400 grams per fruit.
- Moisture Content: 80% – 90%.
- Shelf Life: 30-60 Days.
- Packaging: Corrugated box.

# Bananas

**HSN CODE - 08039010**

Bananas are naturally sweet, creamy, and packed with energy, making them the ultimate on-the-go snack. Perfectly ripened for flavor, they're a versatile addition or natural sweetener to smoothies, baked goods, or breakfast bowls. With a wealth of nutrients — including Vitamins B6, C, Fiber and Potassium.

## SPECIFICATIONS:

- Length: 6 inches and above.
- Calibre: 40 mm to 46 mm.
- Maturity: 11 to 13 weeks.
- Variety: Cavendish (especially G9) and Grand Naine varieties.
- Temperature : (13-14 degree) (55.4-57.2 F) and 85-95% relative humidity.
- Shelf life : 3 to 4 weeks.
- Packaging: Carton boxes (13.5–18.5 kg).

# Spices

HSN CODE -09

Asian Spices, specifically Indian Spices are famous all over the world. We are one of the leading exporters of Spices across the globe. We export spices in grounded as well as whole form including Chili, Cumin, Fennel, Fenugreek, Coriander, Turmeric Finger, Turmeric Bulb and many more.. Spices are dried plant parts, such as seeds, fruits, bark, roots, and rhizomes, used to flavor, color, and add aroma to food.

## SPECIFICATIONS:

- **Quality Control:** Implement rigorous quality assurance by testing for moisture, adulterants, and pesticides, and maintain strict post-harvest hygiene protocols.
- **Traceability:** Ensure a real-time traceability system from sourcing to shipment to meet advanced international market standards.
- **Packaging:** Use appropriate packaging such as vacuum-sealed or customized packs to maintain freshness and overall product quality.
- **Marketing:** Leverage government subsidies for promotional activities, including creating promotional videos and brochures to increase global market visibility.

# Dry Fruits

**HSN CODE -0813**

Dried fruits are a powerhouse of nutrients like fibre, vitamins, rals, and are a low-calorie food that helps to relieve constipation, strengthen bones, boost energy levels, and work as a perfect substitute for unhealthy snacking. We have dedicated export facilities for Almonds, Cashews, Pistachios and other dry fruits.

## SPECIFICATIONS:

- Properly Graded: We have installed automated grading and colour sorting machines for proper and accurate grading of our products
- Proper Sterilization & Fumigation of products: All the processing, cleaning, sterilization and fumigation tasks are carried out under the guidance of skilled inspectors ensuring the high quality of our products
- Specialized Packaging: We use vacuumed packaging flushed with inert gas for longer shelf life and retention of natural nutrients
- Customer satisfaction: Through our products, we have laid importance on quality leading to maximum customer satisfaction
- On-time Shipments: Timely delivery of our consignments will adhere to your needs and deadlines

# Vinyl Stickers/ Self-Adhesive Stickers

**HSN CODE: 3919**

Durable, high-quality vinyl stickers designed for long-lasting adhesion and vibrant printing. Ideal for branding, labeling, and promotional use, offering weather-resistant performance for both indoor and outdoor applications.

## SPECIFICATIONS:

- Self-adhesive PVC / Vinyl stickers
- Plastic-based stickers
- Used by most printing shops for both printed and non-printed stickers

# Printed Advertising Materials

HSN CODE: 4911

High-quality printed advertising materials including flex banners, posters, and promotional prints designed to enhance brand visibility and deliver impactful marketing communication. Ideal for events, promotions, and outdoor advertising.

## SPECIFICATIONS:

- Printed flex
- Posters, banners
- Advertising materials

# Printing Inks

**HSN CODE: 321519**

High-performance CMYK inks designed for precision printing across solvent, eco-solvent, and UV printers. Formulated for rich color output, fast drying, and long-lasting durability, making them ideal for signage, flex printing, and outdoor applications.

## SPECIFICATIONS:

- Ink Types: Solvent, Eco-Solvent, and UV-Curable
- Color Set: CMYK (Cyan, Magenta, Yellow, Black)
- Drying Time: Fast-drying for high-speed print runs
- Weather Resistance: UV-resistant, fade-proof, and scratch-resistant
- Compatibility: Suitable for wide-format and digital large-format printers
- Adhesion: Strong adhesion on vinyl, flex, PVC, and coated media
- Odor Level: Low-odor (eco-solvent inks) for indoor printing environments
- Shelf Life: Typically 12-24 months when stored properly
- Print Quality: High color accuracy, smooth gradients, and consistent finish

## OUR PROCESS

# How We Work

### **SOURCING**

We partner with certified farms, vendors & producers across India to procure quality raw materials.

### **QUALITY CHECK & SORTING**

Each shipment undergoes stringent quality checks to ensure freshness, purity, and compliance with export standards.

### **CUSTOMIZED PACKING**

Products are packed securely, with labeling and packaging as per buyer requirements – ensuring safety and compliance.

### **LOGISTICS & EXPORT**

Through our robust supply-chain network, we handle shipping, documentation, and timely delivery to international buyers.

### **CLIENT SUPPORT**

We value relationships – offering responsive communication and support to keep clients satisfied and coming back.
